### Professional Summary

As a motivated Computer Science and Statistics student with hands-on experience in security monitoring and guest relations, I offer a unique blend of technical and customer-facing skills. Currently expanding my knowledge in artificial intelligence and cybersecurity, I focus on applying data-driven finance, medicine, and statistics solutions. I'm exploring the possibility of developing a platform that enables remote access to medical information and the delivery of supplies, focusing on cybersecurity in the healthcare sector. Known for my adaptability, problem-solving skills, and collaborative approach, I thrive in dynamic environments and am eager to contribute innovative solutions to forward-thinking teams.
